MATHURA OVERSEAS

YOUR GATEWAY TO A GLOBAL MEDICAL CAREER

2026–27 EDITION · STUDENT & PARENT GUIDE

The MBBS Abroad Handbook

From Class 12 to a licensed doctor in India — NEET-UG, counselling, NMC rules, FMGE & NExT, country-by-country choices, universities, costs and the admission journey. Updated with what changed in 2026.

DESTINATIONS COVERED

Philippines · Russia · Uzbekistan · Kyrgyzstan · Kazakhstan · Georgia · Vietnam · Timor-Leste · Central America & Caribbean

INSIDE THIS HANDBOOK

Contents

Read it once, start to finish. Then keep it beside you through the admission journey.

01 **Your Roadmap After Class 12** 3
Every step from board exams to permanent registration in India

02 **NEET-UG: The Gateway Exam** 4
Eligibility, 2026 cut-offs, and what the Re-NEET year teaches us

03 **Counselling — In India & For Abroad** 5
MCC, state quota, rounds — and how to keep both options open

04 **The NMC Rulebook (FMGL 2021)** 6
The conditions your foreign degree must satisfy

05 **FMGE Today, NExT Tomorrow** 7
The licensing exam, real pass rates, and how to prepare

06 **Myth vs. Fact** 8
What families hear — and what is actually true

07 **Destination Guide** 9
Pros, cons, universities and approximate fees, country by country

08 **Compare & Choose** 19
Side-by-side table, decision matrix, 10 questions to ask

09 **Admission, Visa & Documents** 20
The step-by-step journey and the paperwork

10 **Life Abroad & Costly Mistakes** 21
Living costs, safety, and the pre-admission checklist

11 **Why Mathura Overseas** 22
How we support you — and our sources

Please read: this handbook is general educational guidance. Fees, regulations and exam formats change. Facts marked AS OF were checked in 2026 — always confirm the latest NMC / NBEMS / NTA notifications and the university's own fee letter before you pay anything.

CHAPTER 01

Your Roadmap After Class 12

01

An MBBS abroad is not a shortcut — it is a 7–to–8–year path with clear checkpoints. Here is the whole road, so nothing surprises you.

1. **Class 12 with PCB + English** INDIA
   Physics, Chemistry, Biology/Biotechnology and English, with the minimum qualifying marks. Age 17 by 31 December of the admission year.
2. **Qualify NEET–UG** INDIA
   Mandatory if you ever want to practise in India — even with a foreign degree.
3. **Try Indian counselling first** INDIA
   MCC and state rounds. Abroad is a parallel plan, not a replacement.
4. **Choose an NMC–compliant university** ABROAD
   Verify course length, English medium, internship and local licence eligibility.
5. **Study ≥ 54 months + 12–month internship** ABROAD
   Same institution, same country, in person. Start FMGE preparation in year one.
6. **Pass FMGE (NExT when it arrives)** INDIA
   The screening test for foreign medical graduates, held by NBEMS.
7. **12–month CRMI internship in India** INDIA
   Then permanent registration — you are a doctor in India.

54 mo
MINIMUM COURSE LENGTH ABROAD

12 + 12
MONTHS OF INTERNSHIP: ABROAD, THEN INDIA

Is MBBS abroad right for you?

Tick honestly. If most of these are true, you are a good fit:

- I have qualified (or will sit) NEET–UG.
- I am ready to live away from home for 6+ years.
- I will adapt to a new culture and pick up the local language for patients.
- I will study for FMGE steadily from year one — not in the final months.
- My family has budgeted the *total* cost — tuition, hostel, food, travel, insurance.
- I will choose by compliance and clinical exposure, not by the lowest fee.

★ **Remember the time limit:** NMC's 18 March 2026 notice says the internship must be completed within **ten years** of joining the foreign institution. Plan for no long breaks.

> *"Choosing the right university matters far more than choosing the lowest tuition fee."*

CHAPTER 02

NEET-UG: The Gateway Exam

02

One exam opens both doors — Indian medical seats and a foreign degree that is valid back home.

NEET-UG is conducted by the National Testing Agency (NTA). Qualifying it is **mandatory** for an Indian student who studies medicine abroad and wants to register to practise in India. A foreign university may admit you without it — but that degree will not lead to an Indian licence.

2026: the year NEET was held twice

AS OF OCT 2026

3 May	12 May	21 Jun	11.21 L
ORIGINAL NEET-UG 2026	NTA CANCELS EXAM; RE-TEST ANNOUNCED	RE-NEET UG 2026 CONDUCTED	CANDIDATES QUALIFIED THE RE-NEET

NTA cancelled the 3 May exam with Government approval following investigation findings around an alleged paper leak, and a CBI probe was ordered. The re-exam result and category cut-offs were released in July 2026.

i **The lesson for 2027 aspirants:** keep your documents ready early and never let one date be your only plan. Families who had an abroad plan in parallel lost far less time in 2026.

Qualifying cut-off — Re-NEET UG 2026

CATEGORY	QUALIFYING PERCENTILE	2026 CUT-OFF MARKS	2025 CUT-OFF MARKS
General / EWS	50th	**715 – 213**	686 – 144
OBC / SC / ST	40th	**212 – 177**	143 – 113
General / EWS – PwBD	45th	**212 – 194**	143 – 127
OBC / SC – PwBD	40th	**193 – 177**	126 – 113
ST – PwBD	40th	**191 – 177**	126 – 113

Percentiles were unchanged; marks rose because of the score distribution. Source: NTA via Careers360, 16 July 2026.

Eligibility checklist

- Passed Class 12 with Physics, Chemistry, Biology/ Biotechnology and English.
- Minimum PCB marks as prescribed (commonly 50% General; 40% OBC/SC/ST).
- 17 years old on or before 31 December of the admission year.
- NEET-UG qualified at or above the category percentile.

CHAPTER 03

Counselling — In India & For Abroad

03

Smart families run two tracks at once: Indian counselling for a government or affordable seat, and an abroad application as a safety net.

How Indian counselling works

MCC — All India counselling

Run by the Medical Counselling Committee. Covers the **15% All India Quota** in government colleges, deemed and central universities, AIIMS and JIPMER.

State counselling

Each state fills its own quota (the remaining 85% of government seats, plus private and management seats) on a separate schedule and portal.

Every round follows the same steps: seat matrix published → register & pay fee → fill and lock choices → seat allotment → result → report and join → college verifies your joining.

The 2026 MCC calendar, in brief AS OF AUG 2026

Round 1	Round 2	Round 3	Stray vacancy	State rounds
Registration from 5 Aug · result 17 Aug	Registration 25 Aug · result 2 Sep	Registration 11 Sep · result 18 Sep	28–30 Sep · result 3 Oct	From 13 Aug · stray till 10 Oct

Dates as published for 2026 (Medical Dialogues, Aug 2026). 2027 dates will differ — always follow mcc.nic.in and your state portal.

★ **Timing tip:** most foreign intakes start classes in September–October — the same weeks as MCC Rounds 2 and 3. Start your abroad documents in June so you can decide quickly once Indian results are clear, without missing the foreign intake.

Counselling for abroad — with Mathura Overseas

01 Free profile review
NEET score, category, PCB marks, budget and long-term goal (India, USMLE or elsewhere).

02 Shortlist by compliance
Universities checked against FMGL rules, NMC advisories and Indian embassy notices.

03 Honest comparison
Total cost, clinical exposure, language, climate, Indian student community — side by side.

04 Document verification
Marksheets, NEET scorecard, passport and birth certificate checked before applying.

05 Offer letter review
We read the admission letter and fee invoice with you before any payment.

06 Visa to arrival
Visa, forex, flight, airport pickup, hostel — and parent support afterwards.

CHAPTER 04

The NMC Rulebook: FMGL Regulations, 2021

04

Notified on 18 November 2021 and still the governing framework in 2026. Get this chapter right and your degree is safe.

54 mo	12 mo	100%	+12 mo
MINIMUM COURSE DURATION	INTERNSHIP AT THE SAME INSTITUTION	ENGLISH-MEDIUM INSTRUCTION	CRMI IN INDIA AFTER FMGE

The 10 conditions every student must know

01 **54 months** (4.5 years) minimum course, excluding internship.

02 **12-month internship** at the same foreign institution — split internships are not accepted.

03 **English medium** throughout; any online study must be compensated by physical attendance.

04 **Curriculum equivalent** to Indian MBBS in theory, practicals and clinical training.

05 **Local licence eligibility** — you must be able to register as a doctor in that country, at par with its citizens.

06 **Real clinical training** with hands-on hospital exposure.

07 **Recognised institution**, legally recognised in its own country.

08 **12 more months** of supervised internship (CRMI) in India before permanent registration.

09 **A licensing exam** — FMGE today, NExT once it is in force (Chapter 05).

10 **No offshore shortcuts** — campuses or "partner" study centres outside the country don't count.

✦ **New in 2026 — NMC public notice, 18 March 2026** AS OF MAR 2026

Students admitted on or after 18 Nov 2021 do one year of CRMI in India after FMGE. Online years not compensated abroad mean 1–2 years of clinical clerkship in India. FMG internship seats: 7.5% of seats in older colleges and 100% in new colleges without their own interns. Internship must finish within 10 years of joining abroad.

! **Red flags before admission:** the university can't show its internship structure in writing · teaching is "English" only on paper · classes are partly run from an Indian city · the agent asks for fees in a personal account · anyone promises "guaranteed registration" or "100% FMGE pass".

Always verify on **nmc.org.in** (Public Notices) and the Indian embassy website of your destination before paying any fee.

CHAPTER 05

FMGE Today, NExT Tomorrow

05

Your degree is only the beginning. The licensing exam decides when you start practising in India.

The **Foreign Medical Graduate Examination (FMGE)** is conducted by NBEMS for Indian citizens and OCI cardholders with a medical degree from outside India. Pass it, complete your CRMI, and you can register.

300	150	0	2× / yr
MCQS IN TWO PARTS	MARKS NEEDED TO PASS (50%)	NEGATIVE MARKING	JUNE & DECEMBER SESSIONS

The pass-rate reality AS OF OCT 2026

SESSION	PASS RATE	WHAT IT TELLS YOU
December 2025	≈ 24%	10,264 of 42,872 candidates passed — more than three in four did not.
June 2026	≈ 12.4%	Result declared 7 July 2026; widely reported as a much tougher paper.
June 2026 — first-timers	≈ 35%	Government data in Parliament: ~88% of candidates were repeaters. Fresh, well-prepared graduates do much better.

Next session: FMGE December 2026 is scheduled for **9 January 2027** (provisional, NBEMS calendar). Pass rates are not officially published by university — treat any "university pass-rate" advert with caution.

What about NExT?

The plan

The National Exit Test is meant to replace both FMGE and NEET-PG with one exam for all graduates — Indian and foreign.

The status AS OF OCT 2026

Deferred by 3–4 years (NMC Chairman). An NMC draft reported in Aug 2026 keeps FMGE for registration "until NExT comes into force". Prepare for FMGE.

How to beat the odds

- Revise from first year — use Indian standard textbooks alongside university notes.
- Solve MCQs every week from a standard question bank.
- Treat clinical rotations as exam prep: history-taking, examination, real patients.
- Join structured FMGE coaching during the clinical years, not after graduation.
- Take your first attempt seriously — first-timers pass at nearly 3× the overall rate.
- Stay in a peer study group with other Indian students.

CHAPTER 06

Myth vs. Fact

06

Most bad decisions start with a confident sentence from someone who won't be around when the results arrive.

MYTH	FACT
MBBS abroad is only for students with low NEET scores.	Many high scorers choose it for affordability, international exposure or a USMLE pathway.
Every foreign medical degree is valid in India.	Only degrees that meet the FMGL Regulations, 2021 — followed by FMGE and CRMI — lead to Indian registration.
The cheapest university is the smartest choice.	A ₹2–3 lakh saving means nothing if clinical exposure is weak and you clear FMGE years later.
English-medium means no local language needed.	Patients speak the local language. Basic Russian, Uzbek, Vietnamese or Georgian is essential for clinical years.
"This university has a 100% FMGE pass rate."	NBEMS does not publish official university-wise pass rates. Ask for the source of any figure.
NExT is coming, so I can skip FMGE preparation.	NExT has been deferred by 3–4 years. FMGE remains the exam for foreign graduates.
An NMC advisory means the country is banned.	Advisories are usually precautionary and name specific institutions — e.g. the Indian Embassy in Tashkent clarified in Aug 2026 that Uzbekistan admissions are not banned.
A "6-year MD" automatically includes the 12-month internship.	Not always. NMC said in Sept 2026 that this depends on the country's licensing law — check it case by case (see Georgia).
Russia is too difficult for Indian students.	Success depends on individual preparation far more than on the country.
Final-year coaching is enough for FMGE.	Continuous preparation from year one is consistently more effective.

CHAPTER 07

Destination Guide

07

There is no single "best country" — only the best fit for your budget, goals and temperament. Each country below has a one-page profile.

How to read the country pages

Fees

Approximate **tuition for the full programme**, excluding hostel, food, visa, travel and insurance. Ranges from the Mathura Overseas fee guide unless marked otherwise.

Badges

FEATURED marks our spotlight institution. A **coral "advisory"** tag means the institution is named in a recent NMC or embassy notice — verify before applying.

Living

Average **monthly** living budget for a student, in rupees. Your actual spend depends on city and lifestyle.

! **The golden rule:** choose a *university*, not a *country*. Quality, clinical exposure and FMGL compliance vary widely within the same country.

> *"Never finalise a university from a social media ad or a fee chart. Ask for the complete curriculum, internship details, hospital affiliations and NMC compliance — in writing."*

DESTINATION · ASIA-PACIFIC

Philippines

American-pattern curriculum · English everywhere · strong clinical exposure

PH

PATHWAY	MEDIUM	TUITION	LIVING / MONTH
BS (~1.5–2 yr) + MD (4 yr)	English	₹18–35 L total	₹20–35k

For more than two decades the Philippines has been a favourite for Indian medical students: an American-style system, English as the everyday language, and extensive patient interaction through affiliated teaching hospitals.

ADVANTAGES

- English-medium, American-pattern curriculum
- Early, hands-on clinical exposure
- Large Indian student community; tropical climate

CONSIDER

- BS–MD structure differs from Indian MBBS — confirm the MD portion meets FMGL
- Local licensure via the Physician Licensure Exam depends on Philippine law

FEATURED

UV Gullas College of Medicine, Cebu

One of the institutions Mathura Overseas works with most closely — ask us for its full fee letter and internship structure.

UNIVERSITY	APPROX. TUITION (FULL PROGRAMME)
UV Gullas College of Medicine FEATURED	₹18–25 L
Lyceum Northwestern University	₹18–24 L
University of Northern Philippines	₹18–24 L
Davao Medical School Foundation	₹20–28 L
Emilio Aguinaldo College	₹22–30 L
AMA School of Medicine	₹22–30 L
Our Lady of Fatima University	₹24–32 L
University of Perpetual Help	₹24–32 L
Cebu Doctors' University	₹24–35 L

DESTINATION · EUROPE / ASIA

Russia

Established government universities · large teaching hospitals · six decades of Indian students

RU

DURATION	MEDIUM	TUITION	LIVING / MONTH
6-year MD	English / Russian	₹18–65 L total	₹15–25k

Russia has hosted Indian medical students for more than 60 years. Its government universities offer experienced faculty, modern labs and large teaching hospitals, with English-medium options at many institutions.

ADVANTAGES

- Well-established state medical universities
- Excellent clinical exposure in large hospitals
- Wide fee range — from budget to premium Moscow institutions

CONSIDER

- Cold climate in most regions
- Russian is needed for patient interaction in clinical years
- Confirm the English-medium track covers all six years

UNIVERSITY	APPROX. TUITION (FULL PROGRAMME)
Bashkir State Medical University	₹18–28 L
Orenburg State Medical University	₹18–26 L
Crimea Federal University	₹18–28 L
Volgograd State Medical University	₹20–30 L
Perm State Medical University	₹20–30 L
Kazan State Medical University	₹22–32 L
First Moscow State Medical University (Sechenov)	₹40–60 L
RUDN University	₹40–65 L

DESTINATION · CENTRAL ASIA

Uzbekistan

Affordable · modern campuses · growing English-medium programmes — verify carefully

UZ

DURATION	MEDIUM	TUITION	LIVING / MONTH
6-year MD	English (verify)	₹15–25 L total	₹12–20k

Uzbekistan is among the most affordable options and its English-medium offering is growing — but it is also the destination where NMC has asked students to take the most care.

! **NMC advisory, 1 April 2026** AS OF AUG 2026 — named Bukhara State Medical Institute, Samarkand State Medical University and Tashkent State Medical University (incl. its Termez branch and a Bangalore "offshore" partner), citing intake above capacity, non-English teaching and FMGL concerns. In **August 2026 the Indian Embassy in Tashkent clarified this is precautionary, not a ban**, and is working with these institutes on compliance.

ADVANTAGES

- Among the lowest total costs
- Moderate climate
- Embassy actively engaged on student welfare

CONSIDER

- Confirm English is the real teaching language in clinical years
- Check intake numbers and hospital access
- Avoid any "India campus" or offshore model

UNIVERSITY	APPROX. TUITION (FULL PROGRAMME)
Andijan State Medical Institute	₹16–22 L
Fergana Medical Institute of Public Health	₹15–22 L
Bukhara State Medical Institute ADVISORY	₹17–24 L
Tashkent Medical Academy	₹18–24 L
Samarkand State Medical University ADVISORY	₹18–25 L
Tashkent Pediatric Medical Institute	₹18–25 L

DESTINATION · CENTRAL ASIA

Kyrgyzstan

One of the most affordable destinations · English-medium programmes · established Indian community

KG

DURATION	MEDIUM	TUITION	LIVING / MONTH
6-year MD	English	₹18–33 L total	₹12–20k

Kyrgyzstan attracts budget-conscious families with English-medium programmes and a large Indian student community in Bishkek and Osh. The quality gap between universities is wide, so the university you pick matters more than the country.

i **NMC has advised due diligence here before.** In February 2022 it flagged newly launched colleges that had enrolled Indian students without a single local student. Prefer long-established institutions with their own teaching hospitals.

ADVANTAGES

- Low tuition and living costs
- English-medium programmes
- Large Indian student community

CONSIDER

- Cold winters
- Kyrgyz/Russian needed in clinical postings
- Avoid very new colleges with no local students

UNIVERSITY	APPROX. TUITION (FULL PROGRAMME)
Asian Medical Institute	₹18–22 L
Jalal-Abad State University	₹20–23 L
Osh State University	₹22–25 L
Kyrgyz State Medical Academy	₹24–28 L
International University of Kyrgyzstan	₹26–30 L
International School of Medicine (ISM)	₹28–33 L

DESTINATION · CENTRAL ASIA

Kazakhstan

Large national medical universities · modern cities · mid-range costs

KZ

DURATION	MEDIUM	TUITION	6-YR TUITION
6 years	English (verify)	$4,200–5,600 / yr	≈ ₹24–36 L

Kazakhstan's established national universities in Almaty, Astana, Karaganda and Shymkent take international students in English-medium tracks. Costs sit between Kyrgyzstan and Russia.

ADVANTAGES

- Long-established national universities
- Choice of major cities
- Moderate tuition

CONSIDER

- Very cold winters in the north (Astana)
- Kazakh/Russian needed for patients
- Confirm the internship year is inside the programme

UNIVERSITY	TUITION PER YEAR	≈ 6-YEAR TUITION
Asfendiyarov Kazakh National Medical University, Almaty	≈ 3,000,000 KZT	≈ ₹36 L
Astana Medical University	$5,600	≈ ₹32 L
South Kazakhstan Medical Academy, Shymkent	$4,500	≈ ₹26 L
Karaganda State Medical University	$4,500	≈ ₹26 L
Al-Farabi Kazakh National University	$4,200	≈ ₹24 L

Fees: Careers360, 2026. Rupee totals at ₹95.46 / US$ (25 Aug 2026) and Careers360's 1 KZT ≈ ₹0.20. Excludes hostel and living. Ask us for the current fee letter.

DESTINATION · CAUCASUS / EUROPE

Georgia

European-style 6-year MD · English-medium · popular with Indian students — licensing needs checking

GE

DURATION	MEDIUM	TUITION	6-YR TUITION
6-year MD	English	$5,500–8,000 / yr	≈ ₹31–46 L

Georgia offers a European-style medical education in English. It is popular, but 2026 brought an important question about how the 6-year MD fits India's internship and licence rules.

! **Check before you choose** AS OF OCT 2026 — Indian Embassy documents say Georgian 6-year MD graduates work as supervised *junior doctors*; independent practice needs a certification exam and residency, and a licence at par with citizens has been linked to Georgian-language ability. Replying to a grievance in Sept 2026, **NMC said junior-doctor status satisfies FMGL only if Georgian law permits practice at the required level**. Ask the university for written confirmation of the 12-month internship and licence pathway.

ADVANTAGES

- European-style curriculum and campus life
- English-medium programmes
- Popular with Indian students

CONSIDER

- FMGL internship/licence question (above)
- Higher cost than Central Asia
- Georgian language needed for patients

UNIVERSITY	TUITION PER YEAR	≈ 6-YEAR TUITION
Tbilisi State Medical University (TSMU)	$8,000	≈ ₹46 L
Caucasus International University	$6,000	≈ ₹34 L
Georgian National University SEU	$5,900	≈ ₹34 L
East European University	$5,500	≈ ₹32 L

Fees: Careers360, 2026. Rupee totals at ₹95.46 / US$ (25 Aug 2026). Excludes hostel and living.

DESTINATION · SOUTHEAST ASIA

Vietnam

Emerging option · modern infrastructure · safe cities

VN

DURATION	MEDIUM	TUITION	LIVING / MONTH
6 years	English + local	₹28–45 L total	₹18–30k

An emerging destination with modern infrastructure and safe cities. English-medium availability varies by institution — some require Vietnamese for clinical communication.

ADVANTAGES

- Modern infrastructure
- Tropical climate

CONSIDER

- Vietnamese often needed clinically
- Higher fees than Central Asia

UNIVERSITY	APPROX. TUITION (FULL PROGRAMME)
Can Tho University of Medicine & Pharmacy	₹28–38 L
Hue University of Medicine & Pharmacy	₹30–40 L
Hanoi Medical University	₹35–45 L
University of Medicine & Pharmacy, Ho Chi Minh City	₹35–45 L

DESTINATION · SOUTHEAST ASIA

Timor-Leste

A newer, affordable option with English-supported teaching

TL

DURATION	MEDIUM	TUITION	LIVING / MONTH
6 years	English-supported	₹15–20 L total	₹15–25k

A relatively new option with affordable fees and English-supported instruction at selected institutions. Fewer Indian students are enrolled so far — extra due diligence on clinical training, internship and licensing is essential.

ADVANTAGES

- Among the most affordable tuition
- English-supported teaching
- Tropical climate

CONSIDER

- Small Indian student community so far
- Clinical training still developing — verify hospitals
- Confirm FMGL compliance in writing

INSTITUTION	APPROX. TUITION (FULL PROGRAMME)
Universidade Cristal Timor (UCT), Dili	₹15–20 L

★ **Ask us** for UCT's current fee letter, hospital affiliations and internship structure before deciding.

DESTINATION · AMERICAS

Central America & the Caribbean

English-medium · USMLE-oriented pathways for a North American career

CA

DURATION	MEDIUM	TUITION	LIVING / MONTH
5–6 years	English	₹35 L – 1.8 Cr	₹35–60k

These schools appeal to students who want English-medium teaching, modern campuses and — at some institutions — USMLE-focused curricula with clinical rotations in North America. They are the most expensive destinations in this handbook.

! **Important:** some Caribbean programmes run clinical rotations in another country, which can conflict with FMGL's same-institution, same-country rules. If you plan to return to India, verify compliance before admission.

ADVANTAGES

- Fully English-speaking environment
- USMLE-focused teaching at many schools
- International faculty, simulation labs

CONSIDER

- Highest tuition and living costs
- Confirm clinical sites and internship country
- Best suited to a USA/Canada career goal

COUNTRY	SAMPLE UNIVERSITIES	APPROX. TUITION
Guyana	Texila American, Lincoln American, Green Heart Medical	₹35–50 L
Belize	CAHSU, Columbus Central University	₹35–55 L
Antigua & Barbuda	American University of Antigua, Metropolitan University	₹40–90 L
Dominica	All Saints University, American Canadian School of Medicine	₹38–50 L
Grenada	St. George's University	₹1.2–1.8 Cr

CHAPTER 08

Compare & Choose

08

Put the options side by side, match them to what you actually want, then interrogate your shortlist.

COUNTRY	DURATION	MEDIUM	TUITION (TOTAL)	LIVING / MO	CLIMATE
Philippines	BS + MD	English	**₹18–35 L**	₹20–35k	Tropical
Russia	6 yrs	Eng / Rus	**₹18–65 L**	₹15–25k	Cold
Uzbekistan	6 yrs	English*	**₹15–25 L**	₹12–20k	Moderate
Kyrgyzstan	6 yrs	English	**₹18–33 L**	₹12–20k	Cold
Kazakhstan	6 yrs	English*	**≈ ₹24–36 L**	Ask us	Cold
Georgia	6 yrs	English	**≈ ₹31–46 L**	Ask us	Moderate
Vietnam	6 yrs	Eng + local	**₹28–45 L**	₹18–30k	Tropical
Timor-Leste	6 yrs	English*	**₹15–20 L**	₹15–25k	Tropical
Central America	5–6 yrs	English	**₹35 L–1.8 Cr**	₹35–60k	Tropical

*Varies by university — verify. Tuition excludes hostel, food, visa, travel and insurance.

Decision matrix

IF YOU WANT…	LOOK AT…
The lowest total budget	Kyrgyzstan · Uzbekistan · Timor-Leste
English everywhere, US-style	Philippines
Long-established state universities	Russia · Kazakhstan
A European campus experience	Georgia (check licensing)
An emerging Asian option	Vietnam
A USA / Canada career	Selected Caribbean schools

10 questions for any university

- ☐ Is it recognised in its own country?
- ☐ Does the programme meet the FMGL Regulations?
- ☐ Is every year taught in English?
- ☐ Where — and how much — clinical exposure?
- ☐ Where is the 12-month internship done?
- ☐ What is the total cost beyond tuition?
- ☐ Is it named in any NMC / embassy advisory?
- ☐ What hostel and safety support exists?
- ☐ Can I speak to current Indian students?
- ☐ Have I verified all this myself, in writing?

CHAPTER 09

Admission, Visa & Documents

09

A planned admission saves money, avoids stress, and gets you the university you actually want.

The 10-step journey

01 Qualify NEET-UG
Keep scorecard, admit card and rank ready.

02 Shortlist universities
Compliance, recognition, exposure, budget, safety.

03 Free career counselling
Budget fit, career goal, total expenses.

04 Document verification
Marksheets, NEET scorecard, passport, photos, birth certificate.

05 University application
Leads to a provisional admission / offer letter.

06 Confirm admission
Check the admission letter, invitation letter and fee invoice.

07 Pay fees safely
Only to the official university account or authorised partner — never a personal account, never "today only".

08 Student visa
Requirements vary by country; apply early.

09 Pre-departure
Flights, forex, insurance, original + digital copies of documents.

10 Arrival
Pickup, hostel, registration, medical check, ID card, orientation.

A typical year for a Class 12 student

Feb–Mar	May	Jun	Jul	Aug	Sep–Oct
Class 12 board exams	NEET-UG (usual window)	Result · shortlist · passport	Apply · offer letters	MCC Round 1 · visa process	Travel · classes begin

2027 dates are not yet announced (as of Oct 2026). Most universities run one main intake a year — treat the July application step as your real deadline. Visa processing commonly takes 4–6 weeks.

Documents checklist

- ☐ Passport
- ☐ Class 10 & 12 marksheets
- ☐ NEET-UG scorecard
- ☐ Passport-size photographs
- ☐ Birth certificate
- ☐ Medical fitness certificate
- ☐ Police clearance (country-specific)
- ☐ Admission letter & student visa

CHAPTER 10

Life Abroad & Costly Mistakes

10

Studying abroad is about adapting and growing up — and about avoiding the errors other families learned the hard way.

Accommodation

Most universities offer on-campus or affiliated hostels — furnished, with Wi-Fi, laundry and 24×7 security. Private flats may be an option after year one.

Food

Popular destinations have Indian restaurants, grocers or hostel messes — especially where the Indian community is large.

SIM & banking

Get a local SIM on arrival, use a forex or international debit card, and track spending in a budgeting app.

Habits of successful students

- Excellent attendance from day one
- Learn local-language phrases early
- Sleep, eat well, stay in touch with family

Safety basics

- Digital copies of every document
- Save embassy & university emergency numbers
- Tell family before travelling to another city

Costly mistakes to avoid

MISTAKE	WHY IT HURTS
Choosing only because it's cheap	Weak academics or clinicals can cost years at the FMGE stage.
Ignoring FMGL rules	Duration, internship and language decide whether you can register in India.
Believing "100% pass" adverts	No official university-wise data exists.
Ignoring NMC / embassy advisories	They name specific institutions for a reason — read them.
Not asking about hidden costs	Hostel, visa, insurance, exam fees and flights add up fast.
Starting FMGE prep after graduation	First-attempt, well-prepared graduates pass at far higher rates.

Before paying any fee, can you say "yes" to all of these?

- ☐ I have qualified NEET-UG
- ☐ I understand the full course structure
- ☐ I know the total cost, not just tuition
- ☐ I verified recognition myself
- ☐ I checked the internship country & length
- ☐ I know the licensing rules for my batch
- ☐ I compared more than one university
- ☐ I spoke to current students or alumni
- ☐ I read the admission letter & invoice
- ☐ My decision rests on verified facts

CHAPTER 11

Why Choose Mathura Overseas?

11

"We don't just help you secure admission — we help you build your medical career."

Mathura Overseas helps Indian students pursue quality medical education abroad through honest guidance, transparent counselling and end-to-end support — recommending universities on career goals and compliance, not marketing claims.

Before admission

- Career counselling matched to your budget and goals
- University selection on academics, clinical exposure, faculty and compliance
- Application, documentation and fee guidance

Visa & beyond

- Student visa, forex and flight booking support
- Airport pickup coordination and hostel assistance
- Ongoing student and parent support after arrival

★ **Our commitment:** transparency, honest counselling, verified information and student-centric guidance. We never recommend a university solely because it is the cheapest.
